### **Aimtec supply chain intact after events in Japan**

As we all continue to come to grips with the human and economic impact from the devastating earthquake and tsunami that struck Japan on March 11, Aimtec wishes to reassure its partners and clients that its staff in Asia remain safe, its manufacturing infrastructure in Asia remains fully operational, and its supply chain remains intact.

Further, Aimtec will, for the foreseeable future, continue to meet its standard lead time of 6 weeks to 8 weeks.

We will continue to monitor the long term effects and implications of this tragedy, and in the meantime, our thoughts are with all those directly affected.

Aimtec
