

March 17, 2011

To our valued customers,

The recent earthquake in Japan has caused disruptions of manufacturing and transportation of goods in the entire nation. We wish to advise our customers that we do not expect any adverse effect on Kingbright's production activities and no delays for the promised deliveries to our customers. Kingbright maintains sufficient inventory and sources from multiple suppliers to buffer against any delays caused by the unfortunate disaster. We will continue to monitor the situation and update you on the latest status.

Sincerely,

Michael Wang

Sales Manager,

Kingbright Electronics Co., Ltd.
